

# **SRHQ** STREET ROD *HEADQUARTERS*

**800-952-1752**  
**[www.streetrodhq.com](http://www.streetrodhq.com)**

To our Valued Customers:

*This catalog features our expanding inventory of street rod parts for a variety of vehicles including Chevy, Chrysler and Ford in a wide range of years. For over 32 years we have been providing the best in restoration parts for 1937–1954 Chevrolet cars and trucks and an ever-increasing selection of Street Rod Parts. We strive to provide the best in service, quality and variety of parts needed for your vehicle.*

*Chevy parts are found in our Chevs of the 40's catalogs for cars and trucks. These parts are also found online at [www.chevsofthe40s.com](http://www.chevsofthe40s.com) and [www.streetrodhq.com](http://www.streetrodhq.com). Thanks for your business!*

Ron Wade  
CEO/Owner

## HOW TO ORDER

**ONLINE:** Order anytime by accessing our online catalog from our website, [www.chevsofthe40s.com](http://www.chevsofthe40s.com). Credit card information is secure and we don't sell our customer database to anyone.

**Call toll-free:** 1-800-952-1752

Our sales reps are available to assist you:

- via the phone: Monday–Friday, 6 a.m. – 5 p.m. Pacific Time
- in the showroom: Monday–Friday, 8 a.m. – 5 p.m.
- via our lovable voice mail for after-hour and weekend calls.

Existing customers—Simply provide your name and customer number off your catalog label, vehicle year, series and body style, credit card number (if appropriate), part numbers with descriptions and quantities.

New customers—Please provide all of the above information as well as your phone number (in case we have a question about the order) and a complete address including zip code.

**Fax** (order form in the back of the catalog):

- 1-800-888-2438
- Local/International: 1-360-816-0215

## HOW TO PAY

Use **Check by Phone** to achieve prompt shipping (10 days faster than mailing a check.) And because it helps reduce our costs, our reward to you is a 4% discount on parts when you place your first electronic-check order by phone. Try it—it's convenient and secure.

**Checks** by mail are welcome; however the accounting department may hold your order on uncertified funds. At company discretion, a mailed-in check may be converted to an electronic check.

Checks and money orders need to be in U.S. funds.

Returned checks will be charged an NSF fee.

**Credit Cards**—Visa, MasterCard and Discover are welcome! **Ship-to address must match your credit card billing address.**

## HOW WE SHIP

We ship via UPS and USPS Flat Rate Priority Mail (size and weight permitting). For international orders we use UPS expedited or USPS Priority Mail. Please talk to our sales staff for a shipping quote.

**Rates:** Our software computes the UPS shipping and handling charges using the best method. Minimum shipping fee is approximately \$14.

When purchasing oversized parts, some can be shipped via UPS and others need to be sent via truck freight, so please call for rates.

If paying by check, please call for shipping rates and order total.

**Shipping Time** on ground deliveries takes 2 to 14 days depending on your location. For faster service options, when placing an order, please ask your sales person for an express delivery quote.

*Most orders ship the same day!*

**Sales Tax:** Due to the Wayfair decision, we must now charge sales tax to all applicable states. Tax is calculated on the order total (including shipping). Tax rates vary depending on your tax region.

## HOW PROBLEMS ARE HANDLED

**Damage Claims:** If a package appears to be damaged upon delivery, open the package with the delivery driver and have them note any damages. Then call Chevs of the 40s immediately to notify us of any problems/damages. Do not ship to Chevs of the 40s; we will let you know what to do next.

**Shortages:** All parts are scanned with a barcode scanner as your order is packaged making sure you get what you ordered. If, in the unlikely event a shipment error occurs, call us immediately.

**Back Orders:** Our computerized inventory system allows us to maintain tight control on our stocking levels. However, we do not have control over our suppliers. Back orders are not charged until they ship. Shipment occurs immediately when we receive the part.

## RETURNS/EXCHANGES

Made-to-order items, such as glass, are non-returnable. All other parts (excluding Odds & Ends) may be returned within 30 days. Damaged or altered parts cannot be returned. CODs will not be accepted. Returns subject to a 25% restocking fee.

1. Have your invoice ready.
2. Call 1-800-952-1752.
3. Obtain return authorization number.
4. Write the number on the outside of the package and on a copy of the invoice.
5. Include invoice copy in package.

Remember: Shipping can take up to 14 days, so allow 3–4 weeks on returns. Warranty applies only to purchase price of item or replacement of part.

Unfortunately credit card companies no longer credit your credit cards for returns after 90 days. Therefore, we will issue in-store credits or a refund check.

*Note: Product pricing and availability subject to change.*

## PHOTOS

Email us high-resolution photos of your street rods! We love to see them and might even put them in one of our catalogs or advertisements!

**Stuff our attorneys want us to say: Chevs of the 40's will not be responsible for any expenses incurred for installation, modification, fitting or shop repairs of parts. The items sold in this catalog are without warranties of any kind. Items and prices in this catalog are subject to change without notice. Information in this catalog may contain typographical errors or inaccuracies. We reserve the right to correct errors or omissions.**

Refer to our Illustrated Index on the following pages to easily find the parts you are looking for. Parts are referenced by the major components and sorted per section. Refer to that component's section for associated parts. Example: Suspension section will have shocks and related parts.

Reference our Section listings and use our handy thumb tabs. You can also reference our index in the back of the catalog.

Our friendly, knowledgeable sales staff will be happy to answer any questions you may have about our parts. Feel free to visit our web site for any introductory new parts we may be offering.

All prices in this catalog are subject to change without notice. Since we are unable to control our suppliers, product availability may change without warning.

A blend of specially engineered acrylic polymers and bonding agents make Adam's Liquid Paint Sealant an ultra durable surface coating for your car's finish. The heat and detergent resistant formula bonds with your paint's surface to form a barrier of lasting protection against the elements as well as producing a bright, reflective shine that's ideal for your daily driver, show car, or weekend toy. Kit includes a microfiber polishing towel and two microfiber sponge applicator pads. -0.15

Details for our GM ALUMINUM HEAD Crate Motors:

**ROTATING ASSEMBLY:**

- New SCAT crankshafts.
- New SCAT I-beam rods w/ 150,000 psi bolts.
- Hastings moly rings.
- Balanced rotating assembly.
- Melling high volume oil pump.
- Flat tappet hydraulic lifter cam.
- Clevite 77 bearings.
- Heavy duty double roller timing set.

**CYLINDER HEADS:**

- New DART aluminum cylinder heads.
- 1.437 dia. valve springs.
- Hardened retainers & keepers.
- 2.02 swirl polished intake valves.
- 1.60 swirl polished exhaust valves.
- Hardened push rods.

**INCLUDES EXTRAS:**

- Signature Series aluminum valve covers.
- Aluminum dual plane satin finish intake manifold (carb applications).
- 9.5 to 1 compression ratio.
- Brass freeze plugs.

**Radiator V8 (Aluminum)**

These radiators are high efficiency all aluminum, dual large core with transmission coolers. Radiators are built with dual 1-1/8" high flow tubes, double the capacity of stock 2-row. 33% more capacity than 3 row 1/2" tubes. Radiators used stamped aluminum tanks for a stock like appearance.

**Electric Fan 12 Volt**

Absolutely superior cooling! Current draw is a serious concern with all the electronics being used these days. These fans draw less current with more CFM than other fans on the market. The CFM is rated with resistance of the radiator in place, not free flow. Superior motor winding, ball bearings & a balanced fan to motor assembly improves efficiency & reduces current draw on your vehicle.

**Radiator Hose Clamps Thermal**

These heat-sensitive bands shrink to conform to any shape of hose and housing when heat is applied (even out-of-round fittings). Automatically readjusts every time the engine comes to operating temperature. After the engine is shut down, temperatures decrease and the clamp strengthens. Use a heat gun to secure clamps on and a soldering gun for removal.

**Billet Serpentine Pulley Systems. Chevy**

Chevy Small & Big Block Tru Trac Systems mount to engine block allowing any cylinder head/ intake configuration. All Hardware and Fasteners included (excluding power steering reservoir & lines). All aluminum billet pieces are precision machined and highly polished.

Kits Include:  
 New Polished Power Master 105 amp one wire alternator.

Aluminum Alternator Bracket  
 Aluminum Alt Fan and Pulley  
 Aluminum Support Bracket  
 New Edelbrock Aluminum Reverse Flow Water Pump (not included on LS1 kit)  
 Aluminum Water Pump Pulley with Hard Coat Anodized belt surface to reduce wear  
 Aluminum Tensioner Specifically Made For The System

Aluminum Tensioner Pulley with Hard Coat Anodized belt surface to reduce wear  
 Aluminum Crank Pulley  
 Stainless Fasteners  
 Serpentine Belt

Kits with A/C also include:  
 New Polished Sanden SD-7 Compressor with Polished Manifold Block and Fittings  
 Aluminum Compressor Bracket  
 Aluminum Compressor Cover  
 Kits with Power Steering also include:  
 New Aluminum Power Steering Pump (Sweet MFG.) with AN Fittings (-6&-10) Flow Tested and Pre Set to 850psi  
 Aluminum Power Steering Pulley  
 Aluminum Power Steering Bracket.  
 Power Steering Remote Reservoirs (not included in serpentine kit) are also available.

**IMPORTANT:** Although a supercharger or turbo set-up may work with the Tru Trac Pulley System, the system is NOT designed to be compatible with any specific brand or type of forced induction. Please contact the supercharger or turbocharger manufacturer to check for compatibility with the Billet Specialties Tru Trac Pulley System BEFORE purchase. Open Box Tru Trac Systems are NOT RETURNABLE.

**Chevy LS1-LS6**

Billet Specialties has created a Tru Trac for GM's most sought after motor - the Gen III small block. All components are arranged for the most compact system possible - giving you up to 4" more clearance than typical bracket kits on the market. But keep in mind, a Tru Trac is much more than just a bracket kit! This complete serpentine system includes everything you need from the best brands in the industry.

This new system has been designed for mounting accessories below the valve covers and in between the width of the heads. Precision CNC machined from 6061-T6 aluminum for strength and perfect fit. Hardcoated on high wear areas. Clear coated to eliminate polishing in those hard to reach places. Includes:

- Polished Sanden A/C compressor
- Polished Custom March Alternator
- Aluminum reverse rotation water pump
- GM Type 2 power steering pump
- OEM tensioner
- A/C bracket & nose cover with sculpted pockets
- Alternator bracket
- P/S bracket and housing cover
- Crank pulley
- Water pump pulley with fairing and nose cover with sculpted pockets
- Alternator pulley with machined fan and nose cover
- Wing emblem
- Polished A/C Fittings
- Superior grade 8 mounting hardware
- All nose covers
- Power steering housing cover
- Tensioner housing cover

IMPORTANT: Although a supercharger or turbo set-up may work with the Tru Trac Pulley System, the system is NOT designed to be compatible with any specific brand or type of forced induction. Please contact the supercharger or turbocharger manufacturer to check for compatibility with the Billet Specialties Tru Trac Pulley System BEFORE purchase. Open Box Tru Trac Systems are NOT RETURNABLE.

**Billet Serpentine Pulley Systems. Ford**

The most complete serpentine systems on the market! Billet Specialties Tru Trac serpentine systems are engineered to bolt right on and align perfectly without the need for stabilizer brackets or adjuster bars. CNC machined and polished to a mirror finish, the Tru Trac not only looks awesome - it performs! Tru Trac serpentine systems increase the efficiency of the alternator and compressor by eliminating belt slippage

Quality is abundant in every aspect of each Tru Trac serpentine system. Every bracket and pulley is machined from 6061-T6 billet aluminum for exceptional strength and rigidity. Each polished stainless steel fastener features a 12-point head for optimum contact and an aggressive finished look. Select pulleys are hardcoat anodized for increased durability, preventing wear from the backside of the serpentine belt. The exclusive patent-pending billet tensioner eliminates the need for constant re-adjustment.

**Billet Serpentine Pulley Systems. Ford, cont.**

Tru Trac Serpentine Systems Include:  
 Polished Powermaster 105 amp 1-wire alternator  
 Polished billet aluminum 1pc. alternator fan & pulley  
 Natural finish Ford Racing reverse rotation water pump (SB)  
 Natural finish Edelbrock standard rotation water pump (BB & FE)  
 Polished billet aluminum water pump pulley  
 Polished billet aluminum bridge bracket  
 Patent-pending polished billet aluminum tensioner engineered specifically for each Tru Trac serpentine system  
 Polished billet aluminum tensioner pulley  
 Polished billet aluminum crankshaft pulley  
 Polished ARP 12-point stainless steel fasteners  
 Goodyear Gatorback 6-rib serpentine belt  
 Comprehensive installation manual  
 Select pulleys are hard-coat anodized for increased durability in high wear areas

Kits With AC Include:  
 Polished Sanden SD-7 AC compressor  
 Polished billet aluminum AC compressor clutch cover  
 Patented polished billet aluminum AC compressor manifold

Kits With Power Steering Include:  
 Natural finish Maval Mfg. power steering pump with AN fittings  
 Polished billet aluminum power steering pulley

**IMPORTANT:** Although a supercharger or turbo set-up may work with the Tru Trac Pulley System, the system is NOT designed to be compatible with any specific brand or type of forced induction. Please contact the supercharger or turbocharger manufacturer to check for compatibility with the Billet Specialties Tru Trac Pulley System BEFORE purchase. **Pontiac 326-455**

It's Game On for Pontiac power plants as the void in performance accessory drives has been filled. Billet Specialties has answered your requests with the all-new Tru Trac for the 326/455 Pontiac. Using the proven Tru Trac Formula of quality, ease of assembly, name brand components & superior engineering the Tru Trac for Pontiac is sure to be a hit.

- Tru Trac Serpentine Systems Include:
- Polished Powermaster 105 amp 1-wire alternator
  - Polished billet aluminum 1pc. alternator fan & pulley
  - Natural finish Edelbrock standard rotation water pump
  - Polished billet aluminum water pump pulley
  - Polished billet aluminum bridge bracket
  - Patent-pending polished billet aluminum tensioner engineered specifically for each Tru Trac serpentine system
  - Polished billet aluminum tensioner pulley
  - Polished billet aluminum crankshaft pulley
  - Polished ARP 12-point stainless steel fasteners
  - Goodyear Gatorback 6-rib serpentine belt
  - Comprehensive installation manual
  - Select pulleys are hard-coat anodized for increased durability in high wear areas.
  - Kits With AC Include:
    - Polished Sanden SD-7 AC compressor
    - Polished billet aluminum AC compressor clutch cover
    - Patented polished billet aluminum AC compressor manifold
  - Kits With Power Steering Include:
    - Natural finish Maval Mfg. power steering pump with AN fittings
    - Polished billet aluminum power steering pulley

IMPORTANT: Although a supercharger or turbo set-up may work with the Tru Trac Pulley System, the system is NOT designed to be compatible with any specific brand or type of forced induction. Please contact the supercharger or turbocharger manufacturer to check for compatibility with the Billet Specialties Tru Trac Pulley System BEFORE purchase. **AC Systems Perfect Fit Chevy Cars**

Perfect Fit air conditioners use your original GM heater controls and provide you with powerful air conditioning out of the dash louvers, heat on the floor, and dehumidified defrost.

Designed for your specific year and model GM. The GM air conditioning features a flat firewall for a clean look, Air conditioning louvers are in-dash. Installed system gives you dash a/c, heat on the floor, and dehumidified defrost. Stock heater control panel is utilized. Our GM Air conditioning compressor features Hi/Low pressure switch for compressor protection. Installation is a breeze!

Each Perfect Fit air conditioning kit comes standard with the components you need to RETROFIT your classic GM. You'll be living with cool comfort featuring the latest air conditioning technology built into the best-designed climate control system on the market today.

What makes our GM air-conditioning Perfect Fit kit the market leader? High performance. Every single AC component is chosen based on its superior design and overall quality rather than a low cost.

A smaller A/C system is never better when it comes to cooling a high-powered, classic GM.

Choose your specific model below to see what you can expect in your GM Perfect Fit air conditioning kit.

**Old Air Air Conditioning & Heating System**

Complete Universal systems with everything you need to install Heat & Air Conditioning in your vehicle (minus refrigerant). These Hurricane units are designed for efficiency and minimal use of space to allow for stereos, glove boxes, wiper motors, etc. Choose Hurricane unit with Upper, Lower or Side exit fittings (see dimensions below). System includes Sanden 508 Compressor (or equivalent), mounting brackets, Condenser (you'll need to measure your radiator), Receiver/ Drier, Binary Pressure Safety Switch, A/C & Heater Hose, Wire Harness, Clamps, 4 inch Vent Hose Kit, Control Panel w/ Knobs and more. Pick 4 vents to best suit your dash (some double vents count as 2). Optional items include Electronic Slide Controls (Vertical or Horizontal) in black or aluminum finish, Chrome Drier or Polished Compressor. Condensers use flat tubes not round creating greater frontal area which equates to improved cooling.

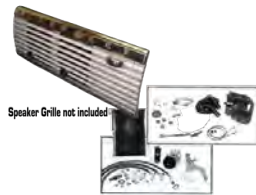

The Heat & Defrost units for these systems mounts directly to your firewall. A/C & Heater lines pass through a custom rubber grommet that fits into the factory blower motor hole. Take a look at our In-Dash Vent and Switch kit below. These systems are designed for easy installation with custom condenser mounting, aluminum lines and step-by-step instructions. Retains cowl vent and majority of glove box. Has floor Heat and De-Humidified Defrost.

**Under Dash A/C System**

Custom Heat Cool & Defrost system for 1947-early 1955 Chevrolet and GMC trucks with compressor mounted on driver side of engine. Custom mounting plate attaches the Hurricane unit to firewall using original heater mounting holes. The A/C & Heater fittings pass through the original factory blower motor hole with a custom rubber grommet. Compact design allows you to retain the cowl vent and a majority of the glove box.

Custom Molded Plenum fits along bottom edge of the dash. Plenum includes rectangular louvers, rotary blower switch, thermostat and two push/pull cables to operate heater and defrost functions. An additional underdash louver is also included to for the left side of the steering column. If desired the plenum can be painted or covered with upholstery to match the interior of of the truck.

Complete System includes a rotary compressor, mounting bracket and condenser/drier assembly with custom tubes for a driver side mounted compressor. A variety of compressor and mounting brackets are available to fit most popular Chevrolet V8 & 6 cylinder engines. The AC hose kit is made with barrier style hose and o-ring style fittings.

- AC4000DC** .....47-54

**Hose Clamps Thermal**

These heat-sensitive bands shrink to conform to any shape of hose and housing when heat is applied (even out-of-round fittings). Automatically readjusts every time the engine comes to operating temperature. After the engine is shut down, temperatures decrease and the clamp strengthens. Use a heat gun to secure clamps on and a soldering gun for removal. For larger radiator hose clamps see section 30.

**CLAMP1**.....**ALL**

**Battery Minder Plus Battery  
Charger**

The Battery minder plus is a 3-mode charger/  
maintainer/conditioner that extends  
performance and life of all types and sizes  
of 6 or 12 volt lead acid batteries (Choose  
either 6 or 12 volt charger). These include  
maintenance-free, marine, deep cycle, sealed,  
gel, and all popular brands of AGM dry-type,  
valve-regulated batteries, such as those made  
by Interstate, Exide, Optima and Odyssey.

The Battery minder Plus automatically  
dissolves harmful power-robbing sulphation  
using safe, U.S. patented high-frequency  
pulse technology. Guaranteed to significantly  
increase your batteries life and performance.

1.33 amps = maximum charging current when  
battery is fully discharged.

(1.0 amp = maximum current available  
if required by battery when unit is in  
maintenance mode)

Sulphation is the #1 cause of early battery  
failure and loss of performance as determined  
by the battery council international, Dec.  
1998.

**Pertronix Electronic Ignition System**

Delivers twice the voltage to the spark plugs, increasing horsepower, fuel economy, and spark plug life.

2:1 improvement over "points" in current fall time for increased coil output.

Rotating cobalt magnets trigger a Hall Effect integrated circuit, no points to burn, no moving parts to wear out.

Epoxy molding makes our module impervious to dirt, oil, grease and moisture.

Stable timing, no need for any adjustments.

**RFID Keyless Ignition**

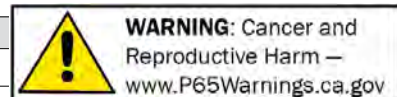

**FR60004** .....ALL  
Hands Free programmable unit that uses  
RFID proximity technology to automatically  
authorize your vehicle to start. The system  
can stand alone in any vehicle, or be  
integrated into any of our tilt columns in a  
paintable, black powdercoat, or polished  
finish.

This new system is fully programmable to  
allow you to use your keyless entry/ trunk  
release system, door poppers, or other  
popular remotely controlled accessories.  
A single fob can even be programmed to  
operate multiple vehicles.

Other convenient features include the  
ability to learn and recognize additional  
key fobs or replacement fobs, an  
emergency bypass mode that allows the  
vehicle to be started using a unique PIN  
#, and a security lockout feature that  
prevents the system from being activated  
when the key fob is inside of the vehicle's  
proximity range.

Kit Includes:  
Ignition Control Module (ICM)  
Two Power Harnesses  
Accessory Harness  
Programming Button  
Emergency Bypass PIN Card  
Start Button (Blue LED is standard - Also  
Available in Red, White and Green)

**Retro Wire Harness from Ron Francis**

The "GIT IT RUNNIN'" harness is designed with 30+ years in the do-it-yourself-wiring business. It is for a 6 volt installation that is nearly completely pre-wired. A drop in harness for that cost conscious enthusiast who does not intend to upgrade any components and is staying with a 6 volt system. Uses Hi-Temp cross-link wire, and has a serial number for fast troubleshooting help. It will wire your headlights, tail lights, brake lights, gauges/senders, engine (starter, generator, distributor), ignition switch, headlight switch and Hi/Lo Dimmer Switch. Add turnsignals and a 3rd Brake Light too, the wires are included! There is also wiring for the License Plate Light. Positive OR Negative Ground systems okay!

**Powered Express Wire Harness from Ron Francis**

**XP-66 .....ALL**

Wiring System - GM Powered Express Series.  
We built these kits to fit your custom application. Wiring is included for the complete car, including starter, alternator, most stock GM, Ididit, Flaming River and other brands of steering columns. It will wire full gauge sets including tach, HEI, points and aftermarket distributors, neutral safety switches, all lighting needed for most safety inspections including high and low beams, indicator lights, parking, turn signal, brake and third brake light. The panel readily accepts fuel injection. The EXPRESS has been simplified over previous models to speed installation. We use HIGH TEMPERATURE fire resistant, color-coded wire with the circuit clearly and legibly printed. A quality headlight switch with wiring is included, as well as an isolated cooling fan relay. Our COLOR CODED INSTRUCTIONS are famous. A unique serial number for each kit enables us to technically support the installation to you or any subsequent owner. -0.15

**Turn Signal Kit Self Canceling**

- \* Operates on all cars - 6 or 12 volts, Positive or Negative Ground.
- \* Self Cancel feature uses time and lack of brake signal to know when to cancel.
- \* Time-out user adjustable for 15, 30, 45 or 60 seconds. Factory set for 15 seconds. Turn signal will not time out with the brakes applied.
- \* Audible beep on turn - user selectable for On/Off.
- \* Easy installation with included instructions, wiring diagrams and terminal labels on control.
- \* Fail safes with brake and park lights still functional even with blown turn signal control fuse or no power to the control box.
- \* Can operate with combined brake and turn lights or separate brake and turn lamps in rear of car.
- \* Can share front Park or Fog lights for front turn signals.
- \* Flash rate independent of lamp load. Will flash LED lamps or incandescent lamps at the same rate.
- \* 4-way Hazard function.
- \* Controller can use any style momentary switch(es) to access all control functions.
- \* 10 pin European style screw terminal connector prewired for power, ground and signal switch plug.
- \* Internal 15 amp turn function fuse and separate Park and Brake circuit 10 amp fuses.
- \* Quick disconnect of control box for easy service. Simply unplug the 10 pin connector.

## LED Headlight Conversion Kit

The Features Of LED Conversion Kit

1. Brightness reaches 8000 Lumens, in comparison a standard 55w H4 halogen bulb is about 1000 lumens.
2. Anti-glare design, better light pattern output
3. Life span over 30,000 hours
4. Excellent heat dissipation
5. Easy for installation (Plug-in Play)
6. Waterproof and dustproof. IP65

## HID Plug And Play Headlight Conversions

The Features Of HID Conversion

- Brighter/whiter illumination
- HID lighting provides a crystal white beam of light that increases night time visibility by 3 times.
- Quick snap water proof connectors, 35% less power consumption's that a standard halogen. Over 2000 hours of HID bulb life.

HID (High Intensity Discharge) Headlight Conversion. H4 6000K.

Convert your current halogens to Xenon HID.

Plug and play installation including instructions and ballast mounting hardware.

35 watts will draw less 3 amps.  
3600 Lumens, in comparison a standard 55w H4 halogen bulb is about 1000 lumens.

\*Race use only.

**Flush Mount Lens Panels**

Hagan flush mounted lens kits are a great way to smooth out the lines of your ride. We offer a variety of styles and sizes saving you from having to build anything from scratch. Mounted on mild steel, the 1/4 inch thick acrylic lens gets sanded down flush with the panel. Complete instructions included. Don't forget to pickup the bonding agent part #HAGRNO which fastens the plastic lens to the metal panel. For Amber lens kits, refer to section 080.

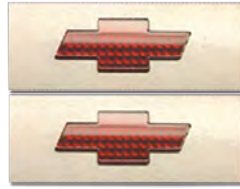

**Flush Mount Lens Panels 2-3/4 inch**

Use 4" lens panel housings for 2-3/4" flush mount lens panels.

**Custom Fuel Door Kits**

Install these unique lids in steel or fiberglass panels with a curved or flat surface, left or right side on fenders, quarter panels or even the cab corner on a 1950 pickup. Spouts at 45 or 90 degree angles from the lid door. Kit includes housing, hinge, door, latch, fill through gas cap (very cool), 4" long spout- 2" dia & pictured instructions. Constructed from 18 gauge mild steel. Push the lid and door pops open.

The screw on gas caps which come with each lid kit are designed to insert the fuel nozzle without removing the cap. This makes filling up easy and keeps the gas lid door size to a minimum.

# Section 120: Fuel System, Gas Tanks, Gas Tank Sending Units, Fuel Pumps, Carburetors, Air Cleaners & Intake Manifolds

## Intake Manifold - Chevy Big Block, cont.

**PP-53025**.....**65-90**  
RPM range 1500 to 6500. Polished. Now available for the big block Chevy engine is this terrific Crosswind design manifold. It features oval ports, nitrous bosses, dual distributor hold downs and four corner water ports. This is the ultimate street manifold for 396, 427, 454 or 502 big block engines. It features a raised plenum area that allows air to pass under the plenum, producing a cooler intake charge with a resultant increase in power and torque output. -0.15 .. **\$323.50 EA** ⚠

**PP-53026**.....**65-90**  
RPM range 1500 to 6500. Satin. Now available for the big block Chevy engine is this terrific Crosswind design manifold. It features oval ports, nitrous bosses, dual distributor hold downs and four corner water ports. This is the ultimate street manifold for 396, 427, 454 or 502 big block engines. It features a raised plenum area that allows air to pass under the plenum, producing a cooler intake charge with a resultant increase in power and torque output. -0.15 .. **\$254.00 EA** ⚠

## Intake Manifold - Chevy Small Block

**PP-52001**.....**57-95**  
Cyclone, Satin.  
RPM range Idle to 5500

The 52000 Power+Plus Cyclone Manifold is a direct replacement for the stock manifold on 1957-95 Small Block Chevy non-EGR engines. Includes special adapter bushings to fit '87-'95 engines.

Use the stock Quadra-Jet carb or 500-650 cfm vacuum secondary carburetor. Kit includes adapter plate to permit use of certain square bore style carburetors. -0.15

..... **\$130.50 EA** ⚠

**PP-52010**.....**57-95**  
RPM range Idle to 5500. Polished. This is our top-of-the-line medium profile street performance manifold. It is similar to our 52000/52001 Cyclone, although slightly taller, but with several important modifications. First, it has a square bore carb flange instead of a spread bore. The square bore flange permits direct bolt-on of all popular Holley, Edelbrock, Carter, and Demon carburetors. This manifold is also the only SB Chevy manifold available that features a built-in rear water crossover passage. This manifold is also supplied with a quality intake gasket set, 12-point stainless steel attachment bolts, stainless washers, and a full complement of aluminum pipe plugs to plug unused tapped holes. We even include a tube of Permatex Ultra-Black silicone sealer for use on the two ends of the manifold where it seals to the block. -0 .... **CALL** ⚠

## Intake Manifold - Chevy Small Block

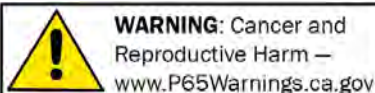

**PP-52026**.....**57-95**  
RPM range 1500 to 6500. Satin. The new CrossWind Manifold is a special version of the 52020/52021. While it is the exact same height, it features an open area under the plenum chamber. This provides for a flow of cooling air which keeps the temperature of the air/fuel charge lower thus producing more power and torque. The interior plenum and port design are identical to the 52020/52021 and will provide somewhat better overall power than the 52020/52021 due to the special air gap style design. -0.15

..... **\$210.00 EA** ⚠

## Intake Manifold - Chevy Vortec

**PP-52006**.....**96-01**  
RPM range idle to 5500. Polished. This manifold is based on our most popular manifold, the Performance Street #52000/52001. It is designed to fit engine swaps using the 1996 and later Vortec (Gen 1+) cast iron heads or the Edelbrock E-Tec aluminum heads. These cylinder heads are very popular in street rods, engine swaps, or the industrial market. This manifold can be used on any Chevy V-8 engine utilizing the late Vortec head. -0.15 ..... **\$181.75 EA** ⚠

NOTE: Any chemicals will be shipped domestic ground only (Lower 48 states only). No international shipping.

**Dual Exhaust System - Chevy Car**

Nothing can beat the sound of the "Split Six" Dual Exhaust! This complete dual exhaust system has been designed for the do-it-yourselfer, and can be installed right in your own backyard or garage. All exhaust pipes are pre-bent, to fit and are made of aluminized tubing for long lasting life. William's Exhaust Headers will improve performance, and glass packed mufflers will give your car the sound made famous in the 50's. Complete with all necessary hardware and installation instructions, (Clamps, hangers, donuts, etc.)

Made in the USA

Note: Headers must be drilled and tapped to use heat kits 838573B or 838574B. Used to heat intake in cold climates (not required).

**Bump Shifters**

The Bumpshift is a stand-alone slap/bump shifter to give the driver a sequential style shifter that is surface mountable. You can mount the bump shifter virtually anywhere that has a flat surface for any automatic transmission. By pulling or pushing on the bump shift lever you give the shift commands to either up shift or downshift. You can specify whether an up shift is back or an up shift is forward on the shift lever by changing the orientation of the yellow and orange wires on the bump shifter.

The bump shifter has a very positive shift feel and utilizes contact-less switches for a robust feel and accurate shift every time. A boot is provided that covers the hardware of the bump shifter for a clean installation.

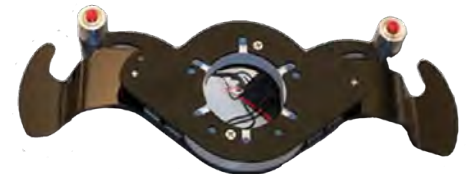

Includes electronic controllers as needed.

**MasterShift Paddle Shifters**

The 'Mastershift' Auto Shifter paddle kit enables you to shift your automatic or manual shift automatic transmission while leaving your hands on the steering wheel. It provides a quick and reliable electronically controlled movement of the transmission shift lever. The shifter unit is coupled to the transmission through a standard shift cable, just like the manual shift lever; this makes installation quick and easy. The 'MasterShift' Auto Shifter supports transmissions with a single, rotating transmission shift shaft that has one position for each gear. Common automatic transmissions fall in this category, as do some less common manual shift automatic transmissions.

**Gear Position Indicator - LED**

12VDC LED Gear Position Indicator for surface  
 mount applications. Plate is held on by first  
 drilling the holes for the LED through the dash  
 and running wire from LED's into the dash.  
 When the plate is placed against the dash it  
 will be held in place by the LED's.

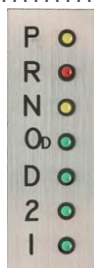

Gear indicator plate measures 1" x 3" x 1/16"  
 thick. Acrylic material with textured silver face  
 replicates brushed aluminum appearance for a  
 budget-friendly alternative.

**Rear Disc Brake Conversion Kit**

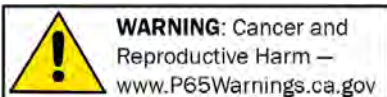

Rear disc brake conversion kit adapts Cadillac Seville/ Eldorado rear calipers and 11 inch rear rotors. Calipers utilize the OEM integral parking brake mechanism and standard GM pads. These conversions are the easiest way to upgrade to rear disc brakes with a functional OEM style parking brake. Kits are supplied with rebuilt rear caliper assemblies with pads, new 11" rotors, caliper brackets and mounting hardware. Axle bearing removal is NOT required for installation.  
NOTE: Minor axle flange machining is required for rotor installation on some Ford and GM installations.

**Electric Power Steering**

**FR40200** .....ALL  
Microsteer universal Electric Power Assisted Steering system. It can be easily fitted to virtually any vehicle, without the need to change steering rack or fit a hydraulic system where manual steering currently exists.

The unique Microsteer Tuning Box allows you to adjust the amount of assistance by using a rotary potentiometer or, if you prefer, you can make the system speed sensitive by connecting a wheel speed signal to the Tuning Box. A mode selection switch on the box allows you to choose your preferred method, manual or wheel speed.

If you have no wheel speed sensor on the vehicle, we recommend purchasing a Hall effect type sensor. This is not included in the kit and would need to be purchased separately. The input and output shafts of the Microsteer unit are 11/16"-36.

The Microsteer kit includes:  
Motor/Gearbox (MGU)  
Electronic Control Unit (ECU)  
Tuning Box  
Wiring Harness -0

## Reference Application Chart

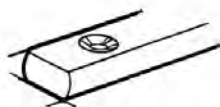

Six Easy Steps to Ordering a Steering System:

1. Choose the type of intermediate shaft you will be using (splined or DD). This is one side of the u-joint that you will need to order.
2. Determine whether you will need a two or three U-joint system. This is dictated by the angle; we recommend a 15° angle for the optimum system, however up to a 30° is acceptable. If using a three u-joint system, a support bearing is necessary. The center u-joint will either be 3/4"DD x 3/4"DD or 3/4"-36 x 3/4"-36, depending on whether you are using splined or DD shafts.
3. Use the reference application chart to select the rack and pinion or box spline size you require. If the chart does not list your application, just measure the diameter of the shaft and count the number of splines. If there is a flat, count half the splines and double this number.
4. Measure your column. If DD (two rounds, two flats), measure the Rounds - it will either be 1"DD or 3/4"DD. If splined, measure the diameter and count the splines (i.e. 1"-48 or 3/4"-36.)
5. If you are using splined shafting and a two u-joint system, measure the distance between the rack and pinion or box shaft and the column, and then subtract 3.25 inches. Round this number up to the next shaft size.
6. If you are using a three-joint system, we recommend using dowel rods to mock up the system. Just measure the length of the dowel rod and this will be the length of your shaft. DD can easily be cut to this size.

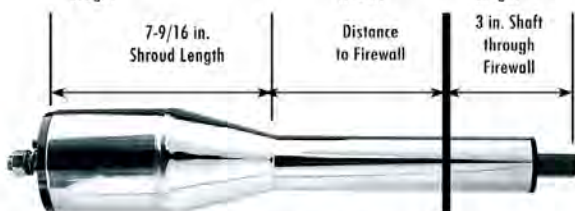

### Important Notes:

- Phasing - Keep the forks of the yokes closest to each other in line, and parallel to the center of the shaft to avoid binding.
- NEVER WELD a universal joint. Welding reduces the strength of the metal and can melt the needle bearing seal.
- Set screws are supplied on all splined and "Double D" u-joints. However, it is necessary to indent, by drilling, the shaft to properly secure the set-screw mechanism. A red threadlocker should also be used. Inspect set screws periodically.
- The shaft should be installed 7/8 inch into the yoke (flush). A shaft that does not engage fully could sacrifice strength. However, if it is too long, it will cause the shaft to interfere (bind) with the operation of the u-joint.

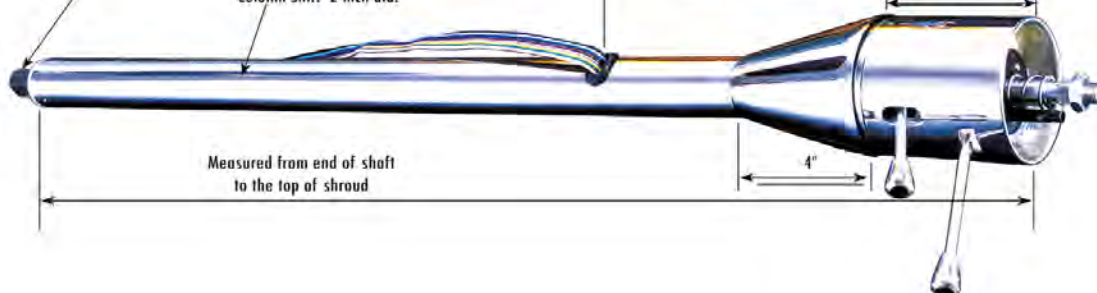

### MEASURING FOR YOUR TILT COLUMN

$$7\text{-}9/16 \text{ in. Shroud Length} + \text{Distance to Firewall} + 3 \text{ in. Shaft through Firewall} = \text{Your Desired Column Length}$$

Your Desired Column Length

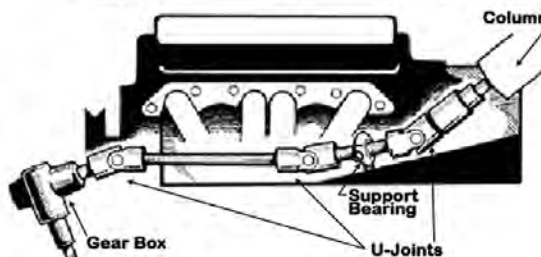

1 inch DD Tube; Floor Shift 1-3/4 inch dia. Column Shift 2 inch dia.

**Tilt Steering Columns -Column Shift (Flaming River)**

Flaming River now manufactures an all new column shift, tilt steering column. All new components have been engineered by Flaming River to incorporate state-of-the-art technology in this nostalgic design. Each column comes complete with gear shift arm, stainless steel dress up kit, illuminated gearshift indicator (not available for keyed columns) and GM wiring (4-1/4 connector) and a removable 12 position linkage arm with each column for easy alignment. Shaft size is 1 DD 2 tube diameter.

**FR1810** ..... ALL  
3/4 in., zinc plated for steering systems with multiple joints. Fits splined or DD shafts. 5.548-0.15 ..... **\$43.75 EA** ⚠

## Steering Shaft-Billet (Flaming River)

These billet shafts use a pre-ground alloy steel for strength and cosmetics. Available with electroless nickel plating for corrosion resistance.

There are two types of intermediate shaft systems: Splined (3/4-36) or DD. Either shafting is ideal for your steering system. Splined shafts allow a more precise adjustment. DD can only be phased 180 degrees. The advantage to DD is that it can be cut to any length eliminating the need to premeasure. You will need to choose which shafting you will be using prior to ordering the universal joints, since one side accommodates the shaft. Splined shafts have two inches of spline on each side that can be easily trimmed one inch per side. DD shafts are available in two lengths which can be cut to size.

**FR1850** ..... ALL  
DD 18 in. shaft, unplated. 5.548-0.15 ..... **\$62.00 EA** ⚠

**C5 Corvette Suspension Conversion For Chevy Cars**

**C5 CONV** .....39-48  
 Don't have a donor C5 Corvette? We've put together all the components for a front C5 Conversion in a kit. Complete with factory nuts/bolts to put it together. Does not include shocks and springs. Bolt in for 1939-48 Chevrolet Cars. All new parts instead of used donor parts.

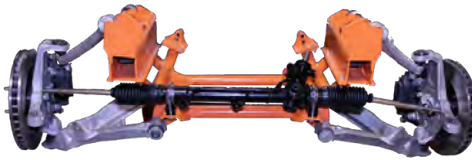

57" Track Width. Must use min. 17" wheel with 4" Back Spacing.

Rack & Pinion unit is rotatable for motor mount or header clearance.

No welding on frame. No holes to drill. Bolts right in. Could do install in an afternoon. Doesn't use 30+ year old Mustang II technology. Comes with factory GM Aluminum A-frames and steering knuckles. Tubular crossmember for strength. Motor mounts for SBC, BBC and adapters for LS-Series motors.

Note: Must weld engine mounts. -0

## 49-54 CHEVY CAR FRAME

Bare frame with suspension starting at \$14,005

Complete frame with suspension, brakes, third member & more! ⚠️

Starting at \$17,315

Frame used on the 2009 *Street Rodder* Magazine Road Tour Car. Chevs of the 40's is the official restoration parts supplier for the '52 Hardtop.

## '47-'53 CHEVY TRUCK CHASSIS

Start off on the right foot with this CAD-engineered chassis. 2" x 8" fully boxed rails and a rigid "K" member designed for strength and durability. Order as Base or Complete Chassis. Call for complete information. ⚠️

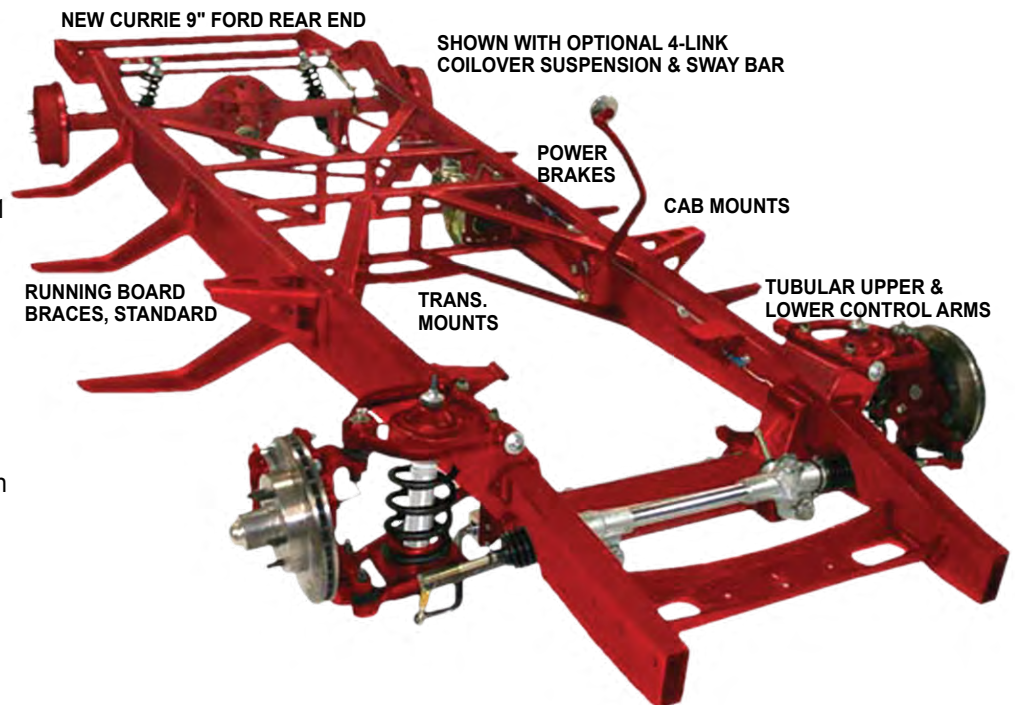

### Base Chassis includes:

- 6 Bolt-on running board brackets
- Cab mounts
- Front body mount
- Engine & transmission mounts
- Complete Mustang II front end
- Brake pedal & bracket
- Currie 9" rear axle housing with 31 spline axles (standard)
- Rear parallel leaf spring kit
- Rear shocks

Starting at \$10,280

### Options & Upgrades

- Tubular IFS front end
- Chrome/stainless front suspension upgrade
- 4-Link rear suspension
- 3<sup>rd</sup> members
- Air bag suspension upgrade
- Sway bars
- Steel brake lines installed

NOTE: Any chemicals will be shipped domestic ground only (Lower 48 states only). No international shipping.

## Corvette C4-IFS & IRS Installation Kits for 47-53 Chevy Trucks

Now you can have the ride, superior handling, cornering and braking provided only by the advanced technology built into the Corvette suspension.

We offer quality kits to adapt the late model ('84-'87 and '88-'95) Corvette front and rear independent suspensions to your '47-'55 Chevy truck. (Suspension not included.)

These kits are designed to fit your frame. All brackets are laser cut from cold rolled steel and heli-arc welded for strength and unsurpassed good looks.

These kits utilize Corvette C-4 front and rear suspension components mounted to your frame using the stock Corvette geometry. The real bonus is this system uses the stock Corvette Power Rack and Pinion Steering Unit as designed by

Gm, eliminating and "bump steer" problems inherent with units from vehicles designed in the '70s with light weight vehicles and economy in mind. You can GM sports car handling on your GM manufactured truck. All the corvette suspension components are manufactured from forged aluminum which allows you to decrease vehicle weight while also maintaining strength and a solid suspension.

Not only will you be amazed at how well your truck rides but how fun it will be drive with a Corvette front and rear suspension installed. And let's not forget 4-wheel disc brakes designed to mount to your suspension.

Available **Aldan Eagle coilover shocks** for front or rear allow you to adjust the ride to your liking with 6-position adjustable compression damping and spring rate adjustment also. Rugged construction and combination of oil and gas charging incorporated in each shock are only part of the reason we recommend them with our IFS and IRS kits. Kits complete with instructions and all hardware.

You'll enjoy the handling and new life brought to your truck with these very affordable suspension kits for years to come.

**4-Link Rear Suspension**

Parallel 4 link rear suspension using heavy  
tubing & lasercut bracketry. Uses a panhard  
bar to position the rear axle side to side. Fewer  
bar mounts than other 4-link systems means  
easier to install.

Kit offers:

Superior ride quality & handling

Rubber bushings eliminate poly bushing  
squeak

Highly adaptable to most vehicles

Bolt-on panhard bar available for many  
applications

Simple, straightforward installation. Only 4  
brackets to locate and weld

.219" wall direct threaded DOM tubing for  
maximum strength

.188" wall alloy steel bracketry is CNC lasercut  
and folded for strength and accuracy.

**Power Reverse Hood Kit**

**13004**.....ALL  
 At the touch of a button the Reverse Hood Kit is designed to lift up, move forward and open in reverse. While

traditional reverse opening hoods are manually operated and often require major valence clearance, Electric-Life's kit utilizes power actuators and a patent pending cam lever design to move the hood out of the way of any valence or front body paneling. Smooth operation is guaranteed with gas shock stabilizers and rear hood machined Delrin axial guideway.

Note: Use 13004B for mounting brackets (sold separately) -0

..... **\$1,328.25 SET** ⚠️  
**13004B**.....ALL

Universal mounting brackets can be used to install the 13004 on most vehicles. The bracket kit requires good fabricating and welding skills. -0 .. **\$287.50 SET** ⚠️

**Tilt Hood Hinge Kit**

**TILTHD**.....ALL  
 Kit makes it easy to reverse the tilt on your hood! Not only does it give you a custom look, it also allows for easy access and maximum visibility! Easy installation, universal application. High Strength Black Finish. Adjustable kit ships with detailed instructions. -0.15 .... **\$250.50 KIT** ⚠️

**Hood Hinge Kits**

**602564**.....37-39  
 Front Tilting, for use with Chevy fiberglass hood. 8.000 -0.15 ..... **\$428.99 SET** ⚠️

**Universal Hood Latch**

**WASD03**.....ALL  
 This little beauty is called a Rotary Claw Latch. It's spring loaded, "slams" shut just like a bear claw latch and can be

used in a variety of applications like trunks and hoods. It is 1.8" high from the mounting surface to the top, 1.25" from the mounting surface to the striker center and the attachment holes are 3.25" center-to-center. The finish is zinc yellow chromate. Latch has cable release mechanism below the mounting surface. Striker included. -0.15

..... **\$39.00 EA** ⚠️

**WASLH02**.....ALL  
 Matched latch and safety catch with cable release mechanism.

Easy clean installation with a nice zinc yellow chromate finish. Receiver measures 4-13/16" x 2 3/8" Works great on 1935 and later vehicles. -0.15

**Acousti-Shield Kits**

Introducing a multi-stage, automotive insulation and sound damping system to give your vehicle the quiet riding comfort found in today's new cars. AcoustiSHIELD kits are designed on current state-of-the-art auto acoustic technology, to insulate and control the noise, vibration and heat in the passenger cabin. Kits are pre-cut and come with easy-to-follow installation instructions, everything you need to do the job right.

Kits Include:

- Stage 1 Pre-Sized Sound Damper Pads
- Stage 2 Pre-Trimmed Heat Absorber / Barrier Panels, Spray Adhesive and Sealing Tape
- Complete Illustrated Installation Instruction

The first stage consists of pre-trimmed, self-adhesive, Sound Damper Pads, bonded to strategically located trouble spots on the floor pan and roof of the vehicle to control body panel vibration and noise. These spots are mapped and labeled in detailed instructions which are included in the kit.

The second stage uses a high-tech absorber/barrier material, bonded to the body panels, to both sound deaden and insulate the vehicle from radiant heat penetration from the engine and road. Each absorber panel is cut to the correct shape and contour and is mapped and labeled in the detailed instructions.

**Ultimate Noise Barrier Kit**

Ultimate Noise Barrier Kit includes: One vibration damping sheet (VB-2) Four acoustic sound floor barrier sheets (VBLOK-VB4.5) One gallon of sprayable sound deadener (DEADENER) Complete instructions for all items in kit.

- The vibration damping sheet comes with adhesive backing, molds to inner door frame with the use of a heat gun, is 40% lighter than asphalt damping materials & can handle continuous temperatures to 250 degrees. (covers 14 square feet).

- The acoustic sound floor barrier sheet is a high performance composite consisting of a flexible loaded vinyl massing barrier with a form decoupling layer designed to reduce road noise coming into the vehicle. it is ideal for applications over flooring, side panels & firewall. (covers 14 sq. ft. each sheet)

- The sprayable sound deadener is a high performance air curing, damping compound designed specifically for the interior & exterior side of body panels. Easy to apply non-toxic water based. (covers 30 sq. ft.)

13209.....	ALL
Ultimate noise barrier kit. 8.800 -0.15	\$500.00 KIT ⚠

**Basic Noise Barrier Kit**

Basic Noise Barrier Kit includes: Two thermal acoustic blankets (VBLOK-INS12) One gallon of sprayable sound deadener (DEADENER) Σ Spray-on adhesive material & specialty seam tape Complete instructions for all items in kit.

Sprayable sound deadener is a high performance air curing damping compound designed specifically for the interior & exterior side of body panels. Easy to apply, non-toxic, water based (VB-1X). 30 sq. ft. of coverage.

Thermal acoustic blankets designed with foil (top and bottom) to reflect heat with a cotton fiber layer to insulate & absorb moderate sound levels (VBLOK-INS12).

The spray on adhesive material is used to attach the insulator to the applied surface (GC-1).

The specialty seam tape is used to join multiple insulators together (ST-1).

## Headliners -Moulded ABS Plastic

ABS Plastic with a medium embossed leather grain texture. This material is easily formed with heat and duplicates the original look and texture exactly. ABS plastic is very tough, yet flexible, and does not show scratches or scuffs. Can be easily dyed with a flat vinyl plastic spray paint.

All patterns are based on out-of-vehicle originals. The panels also can be covered with cloth or acoustic material.

Note: Oversize shipping charges apply on headliners. Please call for rates.

**Laser Jammer**

The HP-905 Compact sensors are super small,  
30% smaller (by volume) compared to the  
smallest competitive product on the market.  
The HP-905 is powered by extremely powerful  
laser diodes. This feature alone places the  
HP-905 in a class of its own. The new sensors  
fit easily and very discretely into the tightest of  
grille spacings and make mounting and vehicle  
body integration a breeze.

The new HP-905 sensors are many times more  
powerful than previous models, incorporating  
both high output laser diodes and high power  
LED's in one sensor. This hybrid combination  
eliminates the usual problem with laser diode  
"grid patterns" which are an unfortunate  
feature of single laser diode units. What this  
means to you is a "homogeneous beam" and  
a higher degree of vehicle "invisibility" to laser  
based speed guns.

The Clean Wipe Wiper Drive is a true bolt-in replacement for your original equipment vacuum or electric windshield wiper motor. Each model of the Clean Wipe Wiper Drive is designed for the specific year and model of vehicle. Wiper drives attach to the stock mounting brackets. Designed for attachment to O.E.M. wiper transmission or cable drums. Our kits are 12 volt. If your vehicle is 6 volt, you will need a power inverter (NE14206). Each kit comes complete with nylon bushings to replace the rubber grommets in the wiper transmission linkage arms. (when required).

**Power Window Switch Kits -Oval Switches**

The following oval billet, 3-wire power window switches need a Reverse Polarity Module (#WASLO7-W) to function for power windows.

**WASL39B-CLIP . . . .ALL**  
Light Clip. Now you can add illumination to any of our family of L39B Power Window and specialty switches. This Clip secures to

the switch frame mounting screws and holds your choice of 5/32" size LED (sold separately). The LED shines between the billet rocker and face plate of the switch. We recommend using one clip each for Single or Double switches, use 2 on L39B04X 4-switch panel (you may use one Clip/LED per switch if you wish to achieve maximum illumination). -0.15

## Tailgates - Custom

Stock tailgates have exposed hinges that leak rusty water, chains that damage expensive paint. Tailgates manufactured from 16 gauge, satin coated steel. Hidden hinges concealed into the rear cross member. Hidden latch assemblies actuated by 2 small knobs on the inside of the tailgate. Includes nylon latch bolts and stainless steel strikers to assure smooth, quiet and rust free operation. Mounts to Pro's Pick Custom Beds as well as Stock Beds to add a clean custom look to your original bed.

**TAILGATEPRO** ..... **46-87**

Smooth, clean finish. Fits pro's pick and other stock beds. -0.15 .. **\$928.19 EA** ⚠

### Pros Pick Custom Roll Pan - Chevy

## Steel Corrugated Bed Floor

**3847403S** ..... **ALL**

Do you use your truck for work and don't want to ruin a nice wood floor? This steel

corrugated bed floor was designed for you. 80" long for short stepside beds. -0

..... **\$750.00 EA** ⚠

**3847404S** ..... **ALL**

Do you use your truck for work and don't want to ruin a nice wood floor? This steel

corrugated bed floor was designed for you. 96" long for long stepside beds. -0

..... **\$950.00 EA** ⚠

### Tailgate - Hidden Latch

Stock tailgates are "beautiful", they hold the classic look that is near and dear to all enthusiasts. They also carry those tailgate chains that ruin our \$10,000 paint jobs.

Designed for easy install & tough, rust proof, rattle free operation. Includes check straps, not chains. A touch of the release buttons on each side allows the gate to open.

**26300016** ..... **ALL**

**Bed Lids**

Resin filled composite honeycomb for a durable, long lasting lid. Built-in stainless steel cross bar hinge laminated to the lid gives the hinge system strength and durability. Double stage locking system for extra security and dual heavy duty gas struts are mounted to assist in opening & closing the lid. Double weather seal helps protect cargo from the elements and protect bed rail from excessive wear and tear. Nylon pull strap to assist in closing. Cover reduces wind drag and saves fuel. Easy to install & remove. Primered finish with under lid charcoal carpeting. Bed lids for trucks not listed also available. Please call for email with your needs.

**Trunk Lid Latch**

**WASD03 ..... ALL**

This little beauty is called a Rotary Claw Latch. It's spring loaded, "slams" shut just like a bear claw latch and can be

used in a variety of applications like trunks and hoods. It is 1.8" high from the mounting surface to the top, 1.25" from the mounting surface to the striker center and the attachment holes are 3.25" center-to-center. The finish is zinc yellow chromate. Latch has cable release mechanism below the mounting surface. Striker included. -0.15

..... \$39.00 EA ⚠

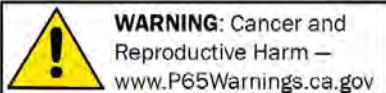

**WASD04 ..... ALL**

We've seen this neat little latch showing up on some of the most eye-catching rods. Cable release ready

receiver measures 2-3/8" x 3-5/16" wide. The spring loaded stud is 2-3/4" long, overall, and the adjustable spring loading helps to pop the trunk lid up. The latch has a built-in safety feature requiring cable tension for the latch to close. The finish is zinc yellow chromate. You'll have to fabricate brackets/supports for attaching both pieces but we know you can do it!. -0.15

..... \$50.00 EA ⚠

NOTE: Any chemicals will be shipped domestic ground only (Lower 48 states only). No international shipping.

**Power Trunk Kit**

**13003** .....ALL  
This kit was specifically designed for anyone looking to shave the trunk, but doesn't want to deal with the hassle of reconfiguring the latch assembly. The Power Trunk Kit is easy to install, and requires no welding or special fabrication skills. The system can be mounted in various places inside of the trunk, and when closed has a holding force of over 200lbs. The system comes complete with everything you need to motorize your trunk, including an emergency entry kit that will allow you easy access in case of a power failure. -0
